This is an adults-only, yuri-filled NanoFate book
People who are uncomfortable with this, please beware
This is a continuation of "Happy Happy Wedding!",

story, it's okay, you can still read this one

On our wedding night, Fate-chan and I were talking, unable to sleep. Fate-chan said, 'Since tonight is our first night as a married couple, maybe we should do our best.' Smiling, I replied, 'Okay.'

This is the story of their first night.

To the me who thought she would never be happy.

I want to tell her.

Right now, I'm incredibly happy

Hello, Nanashki here!
Thanks for picking up this book.

Well, this is the first erotic book I've made in a while.
The last one was the first erotic book I did, so it was really embarrassing.
I felt like I cheated on the last one, but this time I really put all my effort into it!
There were a lot of pages and a lot of drawing, so I'm fully satisfied with it.
With this many pages, I felt like it would never end, and I got a little impatient.
Actually, this time was the closest I've come to not making the deadline.
So in many ways I really tried to try hard.
If you're able to enjoy it even a little, I'll be happy.

Well then, until we meet at the end of the next book,
Thank you very much!
